Hello Daniel

When copying GridCtrl rows I have a problem if some of the cells is colored.

To color a cell I do:

grid.Set(row, col, AttrText("Hello").Paper(LtRed));

When selecting and copying to the clipboard, I get this error:

It fails as this is true:
Typemap().Find(type) >= 0

It is like there is a problem when inserting a AttrText in a Value.

It is inserted as a RawValueRep, type == 5 + 0x8000000
