Subject: How can I translate the controls for my app?

Hi!

I like Upp, but one feature I miss (or I don't know how to use) is to translate the controls.

For example:
I want to translate the Report Dialog to say "Print" in my native language, I want the calendar control to say "November" in my language to, and I want the EditDate to show dates in non-US format like say 20/11/2011 instead of 11/20/2011.

Any help is welcome!

Thanks
