Hi,

I do not know if I should have put this in Coffee corner or somewhere else on this forum. Anyway, the point is here: I get these strange printouts on Linux console when I'm running either GUI or console apps from the console:

AFTER :

```

```

AFTER :

```

```

...

I'm not even sure if they are emitted from somewhere inside app or somewhere else, but I do not understand them and would like to get rid of them.

Any idea where they come from?

Best regards,

Tom
