Hi,

Using struct PACKED we can read the size of the structure correctly.

```
#ifndef PACKED
#define PACKED __attribute__((__packed__))
#endif
```

```
typedef struct PACKED
```

```
{
    int i;
    char c;
    double d;
```

```
    }read_data;
```

```
    read_data r;
```

```
};
```

Thanks & Regards,

Shwetha S
