fudadmin wrote on Fri, 26 May 2006 04:19To provide information, yes -low quality jpg IS smaller. But the topic was that people want to demonstrate the beauty of their workspaces... That's why I said *.png...

1) .png would still be bigger for indistiguishable quality

2) I believe that the right way to demostrate beauty of the workspace is to upload it somewhere else (in whatever format) and post just link.
