harmac wrote on Thu, 15 December 2011 10:28As there are Blitz and Rainbow, how about Cloud?

Hm, what about "Cumulus" ?

http://en.wikipedia.org/wiki/Cumulus_cloud

Quote:

I have to admit, though, that I find it a bit distracting to have all these names like Blitz, Rainbow or Chameleon. There should at least be a "U++ technologies with fancy names" overview page that tells on one screen what these terms mean.

Yes, will do.
