Subject: Re: New graph packages Posted by koldo on Mon, 16 Jan 2012 22:24:07 GMT View Forum Message <> Reply to Message

Hello BioBytes

ScatterDraw package is rather flexible so it can admit many possible new graphs.

If a new graph makes sense for you, just do it or ask for it .

The sooner the better, because now the programming interface is opened in the case a new graph would require to modify it.

And if you know a better simpler way to describe a new graph, just describe it.
