Hello Daniel

This is the code:

```
#include <CtrlLib/CtrlLib.h>
#include <GridCtrl/GridCtrl.h>

using namespace Upp;

GUI_APP_MAIN
{
 TopWindow w;
 GridCtrl grid;

 grid.Clipboard().CopyColumnNames();
 grid.AddColumn("Data");
 grid.Add(AttrText("123").Center().Paper(LtGreen()).Bold());
 grid.Add(AttrText("023").Center().Paper(LtGreen()).Bold());
 grid.Add(AttrText("523").Center().Paper(LtGreen()).Bold());

 w.Add(grid.SizePos());

 w.Run();
}
```

The package is also included.

Thank you .
