Seven wrote on Wed, 31 May 2006 14:27sorry i'm a noob working on this...

Then, also, if you want to experiment with examples, do not change many things at once!

1. Make a copy of the example package.
2. In that copy, change ONE thing and compile.
3. If you got an error then analyze that error and/or ask here.

have you read this topic?:
