Subject: GridCtrl: Sorting order

I have a column of String type, each of format like:

NUMBER SPACE TEXT, eg

38 GridCtrl
375 ArrayCtrl
42 EditString

when sorting by this column, GridCtrl is so smart as to recognize the number in each string and sort by the number instead of alphabetically. This is certainly a feature and would be handy in a lot of situations. Here can I turn off the feature and sort alphabetically instead?

Sorting result (ascending) for above would be
38 GridCtrl
42 EditString
375 ArrayCtrl

Intended is:
375 ArrayCtrl
38 GridCtrl
42 EditString

Thanks!
