>You mean crashing?

Yes. sorry, typo.

>Did you try GCC - Optimal?

Yes. I tried all three (Optimal, Optimize for Speed, Optimize for Size)

All off the output exe crashes on execution. except for Debug which is 15MB in size.

>Check for exact gcc version.

How do i check that in the IDE? I checked the included MINGW folder. according to the readme it has both "GCC 4.5/4.6 Series". i have attached the readme with this post.
