slashupp wrote on Sat, 25 February 2012 16:54 That is spot-on!

The uppsrc under \$HOME/upp contained another uppsrc-subdir.
I moved the sources up and everything worked.
Glad to hear it helped

slashupp wrote on Sat, 25 February 2012 16:54 This means an error in the script that copies the sources to the \$HOME directory. It's done by theide itself. I'll look at it and hopefully fix it...
