Tom1 wrote on Wed, 14 March 2012 14:21OK, now you may determine how 'intelligent' I was... (The revised file is attached.) This one compiled into a supposedly working ide.exe.

However, the same compilation errors seem to still exist when compiling UNS package.

You were referring to flags in one of your posts. You mean Main package configuration flags / or not? I have nothing there yet. Should I?

// Tom

Have you applied the changes to the Core/config.h?

What flags have you got in test package?
