koldo wrote on Tue, 10 April 2012 02:47Hello Mirek and Kohait

In my PC it works now. The changes included for sure are not perfect but they serve:

In Socket.cpp, for MinGW

```
#ifdef PLATFORM_WIN32
#include <winsock2.h>
#ifdef COMPILER_MSC
#include <Ws2ipdef.h>
#endif
#include <Ws2tcpip.h>
#endif
```

In Core.h

- Include this before windows.h, for MinGW

```
#ifdef COMPILER_MINGW
#define WINVER 0xFFFF
#endif
```

- To add:

```
#ifdef PLATFORM_WIN32
#include <ws2tcpip.h>
```

Not quite sure about "To add".

Could you attach both files to be sure?

Mirek
