Thanks for the clarification.

I was tempted to ask because of this thread.
<http://www.seeedstudio.com/forum/viewtopic.php?f=10&t=2362&hilit=gui>

This person has created a complete GUI (you can see the code here
http://pub.valky.eu/ds203ui_preview2.zip) using VS 2000 C++.

Looking at the code, I feel it is autogenerated for the stm32 CM3 processor. I have asked the author how he did this and awaiting his reply.

Regards
Jerson
