The problem seems well known when hitting a breakpoint inside a callback.... if debugged code grabs mouse globally, this behaviour appears.  
Don't know any workaround for it indeed.... It seems that the problem is not easily solvable by debugger alone.

See this one for example...

[https://bugs.eclipse.org/bugs/show\\_bug.cgi?id=20006](https://bugs.eclipse.org/bugs/show_bug.cgi?id=20006)
