koldo wrote on Sun, 20 May 2012 16:31Hello Mirek

Is new system fully compatible with older?

No, it is not. Frankly, I was not even thinking that it should...

I am not even sure I can reach the compatibility, as long as I am using Jsonized Value as intermediate form... (e.g. Date gets converted to String by Jsonize, so I have to send String to XML).
