Hello Mirek

Lately there are problems sometimes when compiling with MSC:

LINK : fatal error LNK1201: error writing to program database
'C:\upp\out\MSC9.Debug.Debug_Full.Gui.Sse2\MyProgram.pdb';
check for insufficient disk space, invalid path, or insufficient privilegeThe .pdb file is locked by
TheIDE.

Using "Unlocker" program this lock is released so it is possible to run the program without closing
TheIDE.
