```
RichText txt;  
RichPara para;  
//give some fmt and value to para  
txt.Cat(para);
```

```
RichTextView view;  
view.Pick(txt);
```

```
//then i want to give some new fmt and value to para  
txt.Cat(para);  
view.Pick(txt); //it collapse!!!! how can i update new fmt??
```
