i try the latest u++ r5074, and it works well now, not halt anymore.

but i still can't use Timeout nor RequestTimeout, i.e.

```
XmlRpcRequest call( "127.0.0.1:1234" );  
call.Timeout(1000); // VS2005 compile error  
call.RequestTimeout(1000); // VS2005 compile error
```

because XmlRpcRequest is private inheritance from HttpRequest,

how about change

```
class XmlRpcReques : HttpRequest
```

to

```
class XmlRpcReques : public HttpRequest ?
```

and thanks.
