Subject: Re: why use fromsyschrset in the first sentence of the logfile?
Posted by mirek on Fri, 29 Jun 2012 07:43:29 GMT

The difference is that FromSystemCharSet requires heap to work (e.g. because it returns String), whereas FromSysChrSet returns a pointer to static memory memory buffer and requires nothing to work.

We want log to work even in conditions where heap is corrupted (it is debugging tool).
