Subject: Re: What does these compiler messages means? and how to fix them?
Posted by navi on Thu, 05 Jul 2012 14:48:27 GMT

Hi koldo,

I have tried compiling Controls4u from Bazaar and it gives the exact same messages. I am starting to suspect this might be originating from "Esc" and "coff" packages. I have attached all the compiler message of all the package in this new attachment as zip.

Thanks & Regards
Navi
