sorry folks, I figured it out. I was using wrong SDL image and mixer libs...

I changed to use these:

http://www.libsdl.org/projects/SDL_mixer/release/SDL_mixer-devel-1.2.12-VC.zip

http://www.libsdl.org/projects/SDL_image/release/SDL_image-devel-1.2.12-VC.zip

and it successfully builds and starts now:)
