Hi x0d3r,

In order to compile, your project should be named NativeMySql and schema file should be named NativeMySql.sch, or change the define of schema file to match your project name

```
#define MODEL <HelloCpp/NativeMySql.sch>
```

where NativeMySql.sch contain the following code

```
TABLE_(test_table)
    INT_(id)PRIMARY_KEY AUTO_INCREMENT
    STRING_(value,50)
END_TABLE
```

Best regards,
Andrei
