mirek wrote on Tue, 28 August 2012 05:31After achieving stack overflow in 'regular way' in one of my really complex applications, I have decided to add linker option to Core that increases the stack size to 8MB.
To increase stack in MSC I had to add:
link << " -stack:2000000";
in MscBuilder.cpp
It would be great if that was configurable in project or build options.
