```
void DrawTextEllipsis(Draw& w, int x, int y, int cx, const wchar *text, const char *ellipsis,
    Font font, Color ink, int n)
{
...
int l = 0;
int i;
for(i = 0; i < n; i++) {
    l += f[(byte) text[i]];
    if(l > cx) {
        while(l + dtl > cx && i > 0) {
            l -= f[(byte) text[i]];
            i--;
        }
        i++;
        break;
    }
}
...
}
```
