Hi ratah,

If you are Using ScatterCtrl/ScatterCtrl or GraphCtrl/ScatterCtrl all you have to do is:

```
scatter.SetXYMin(xmin, ymin);  
scatter.SetRange(xRange,yRange); with xRange=xMax-xMin and yRange=yMax-yMin
```

DO IT in this ORDER !!!if you are using ScatterCtrl/ScatterCtrl otherwise i doesn't work(if my memory is wright)

Or, if you are using GraphCtrl classes you can also do the following:
`scatter.GetYCoordConverter().updateGraphSize(yMin, yMax);`

There also is a class hierarchy doc in the GraphDraw package
