thot666 wrote on Tue, 20 June 2006 06:23Hi Guys!

I'm absolutely newbie in UPP.

Anybody can help me to initialize OpenGL or SDL on Form?

Not in a full window! I want to put other controls into the form to manage the rendering...

Where can i find upp specified docs or something like that?

Thanks!

Peter

PS: Sorry for my ugly english. :-S

SDL - you AFAIK cannot use in dialog.

Anyway, you can use OpenGL - see reference/OpenGL.

Mirek
