mdelfede wrote on Wed, 10 October 2012 11:26Hi Koldo... that's weird, because I just updated uppsrc and web package is still there.
Anyways.... is there some post somewhere of replaced functions of web package ? I didn't find anything about it.

Max

Web is still in SVN, but it is not shipped in the tarballs anymore. Therefore it should be removed from packages using it, so that it doesn't confuse users who don't use SVN
