Subject: Re: Copy\Paste Between Project Files Doesn't work
Posted by mirek on Thu, 08 Nov 2012 18:13:01 GMT

I have to admit that I suspect there is still some problem with Win32 clipboard code, sometimes I have feeling that Ctrl+C does not work as it should, but then I am typing quite fast with occasional mistypes, so I have attributed it to that...

Plus, no of my real users ever mentioned that (which, now thinking about it, could mean that it could be theide specific)...

Anyway, my symptoms are not as sever, it is more like perhaps one of 20 Ctrl+C pushes does not copy data to clipboard...

If I was able to reproduce the behaviour consistently, I guess fixing would be matter of hours at most...
