Mirek,

  Well at least I know now that this must be a feature of win7.

About the software on my pc...

Well I have tons of applications installed there. A random sample of them are: Adobe suit, Wireshark, SecuritySoftware, Visual studio2010&2012, Python, ... etc.

I assume this vague list is not very useful and if you believe it will be helpful I will make an effort and give you a complete list.

Let me know.

Best,
nejnio
