Subject: SQL_MySql reference example only compiles in debug mode

System: Windows Xp (up to date)
MSC10
UPP 4677
MySQL 5.5

When I compile the reference/SQL_MySql example in debug mode, it works. When I compile "Optimal" I get the following compilation error:

C:\upp\uppsrc\MySql\MySql.cpp(275) : error C2018: unknown character '0x40'
