[View Forum Message](#) <> [Reply to Message](#)

System: Windows Xp (up to date)

MSC10

UPP 4677

MySQL 5.5

When I compile the reference/SQL_MySql example in debug mode, it works. When I compile "Optimal" I get the following compilation error:

C:\lupp\luppsrc\MySql\MySql.cpp(275) : error C2018: unknown character '0x40'
