In the first post the Test2.rar has a commented line I tried that also gave the: // H1::t1 <<= "2 OK"; // error: 'H1' : is not a class or namespace name

I am on Win7 64bit running U++ 5556 On Win7 32bit and U++ 5584 the problems are the same.

Same with U++ 5592

I may have overlooked something so here it is with the last changes.
