Subject: Re: Is it possible to set the Font type for the arrayctrl?
Posted by forlano on Wed, 28 Jun 2006 16:45:27 GMT

Let's come back on this old topic about font and arrayctrl.

Here http://www.arilect.com/upp/forum/index.php?t=msg&th=234& amp;start=0& we've seen how powerful is the singleton technique and how it is used in conjuction with SetDisplay to set the color of a cell/column.
The question now is: can the same technique be applied to change the font (to curier for example) of one column of the arrayctrl?

I do not need to change the font of the overall application, but only locally in the arrayctrl.

Luigi
