Search Path Used by Windows to Locate a DLL

<http://msdn.microsoft.com/en-us/library/7d83bc18%28v=vs.80%29.aspx>

The link error could be you did not set library search path correctly in U++ Package organizer.

For extra library, you need to supply both library name and its path. I suspect you did the first part but didn't do the second part or you didn't do it correctly.
