lectus wrote on Sat, 15 December 2012 15:10 Most programming languages and frameworks are on irc.freenode.net.

I suggest that the authors of U++ register a #Upp channel there.

It's a good option to chat about U++ when creating a full thread at the forum is too much.
Hi lectus,

Are you aware of the #upp chanell on slashnet.org? (Webclient is available here)

Best regards,
Honza
