navi wrote on Tue, 20 November 2012 05:16Just remember one more. A button for "Compile &
Execute" next to the Rebuild All and Compile button on the toolbar would be so handy!! Compile
and Execute option already exist under debug menu and Ctrl+F5 shortcut but a button a button on
the toolbar would be perfect for 1 click.

Thanks & Regards

Navi

I figured out a way to bring the "Compile & Excute" button on theIDE toolbar. Screen caps
attached shows the codes that I changed. I guess theIDE always had the button on the toolbar
except with a condition to only show if debugger installed. So I got rid of the condition and voila!
the button appears!
