Subject: Re: [BUG] HttpRequest fails under FreeBSD
Posted by Mindtraveller on Thu, 10 Jan 2013 14:26:05 GMT

Hello, Neil!

Frankly speaking I just did not catch your point.
We have following simple code:
 HttpRequest http("http://google.com");
 String s = http.Execute();

This code works under Windows. But fails under FreeBSD.
My point is it MUST be working under FreeBSD as well. This is how cross-platform calls work.
You agree, aren't you?
