Subject: LineEdit event on click on scrollbar Posted by mircerlancerous on Thu, 31 Jan 2013 00:20:02 GMT View Forum Message <> Reply to Message

Hey I'm looking for a way to get an event to trigger on a click of the LineEdit scrollbar. The leftdown even doesn't trigger unless you're actually clicking in the main field. Maybe I'm missing something easy?

While we're at it a quick example of how to add the leftdown event to the LineEdit (through subclassing?) would help as I had to make a bit of an ugly hack to get it to go.

Thanks.
