Button::Style::textcolor[4]

There are 4 values, corresponding to

```
enum {  
    CTRL_NORMAL, CTRL_HOT, CTRL_PRESSED, CTRL_DISABLED,  
    CTRL_CHECKED, CTRL_HOTCHECKED  
};
```

(regular button does not have checked/hotchekek states).

So the one you are looking for is Button::Style::textcolor[CTRL\_DISABLED].

Note that this pattern is quite standard for all of chameleon.

Mirek
