Subject: Scatter-demo crash

I downloaded and installed Ultimate++ Rev. 5485 on Ubuntu 12.04.

When testing Scatter-Demo tab "Operations" I can reproduce a crash by:
- Adding some series (ca. 4 to 5)
- Remove first series
- Remove last series
==> Fatal error: Invalid memory access

BTW, according to the print preview the scatter plots do not fit on a page. They are cropped on the right side. A second page with the missing part does not exist. Is it possible to change the print preview to landscape?
