**Subject: Re: IDE hangs when using breakpoints in Debugger**
Posted by OliverSo on Wed, 13 Mar 2013 09:39:51 GMT

Sorry for pushing this...

What I did in the meantime:
Tried MinGW on XP machine. Setting break points just crashes the IDE after hitting F5.

Installed 5485 on a Windows 7 machine with MingW. Same result: Setting a breakpoint just crashes the IDE after hitting F5.

I don't seem to be the only one with this problem
http://www.ultimatepp.org/forum/index.php?t=msg&&th= 6680&goto=39292#msg_39292

Am I doing something totally wrong, or is using the debugger something which is totally unusual?

Oliver
