Hello,

I have enclosed patch code (CtrlLib/DateTimeCtrl - line 309):

```
Image Calendar::CursorImage(Point p, dword keyflags)
{
 bool b = (selall == false ? Day(newday) > 0 : true);
 if((newday != nullday && b) || istoday)
  return Image::Hand();
 else
  return Image::Arrow();
}
```

Sincerely,
Klugier
