nlneilson wrote on Sat, 13 April 2013 06:24 When compiling ide.h it took about 10 minutes and ended with errors. I tried using the 'Find' in the Console window to find what the errors were with no luck.

AFAIK there is no feature that would allow you to do arbitrary searches in the console. Pressing F4 can be used to step through the errors one by one. It moves you to appropriate position both in the source and in the console.

Best regards,  
Honza
