BioBytes wrote on Thu, 11 April 2013 20:44Hello Crydev,

Looks nice !!

Which feature in Upp did you enjoy the most while developing your project?

Regards

Biobytes

Hi Biobytes,

The feature I enjoyed the most is creating a fast and efficient GUI in a not very hard way. I'm not on another project, a memory scanner, in which I'm using the GridCtrl too. A very nice control and very easy to use.
