Subject: Have Visual Studio? Looking for prebuilt SDL 2.0

Hi,

I would like to play a little rainbow game with SDL 2.0. The problem is that there is no prebuilt library for MSC and building requires Visual Studio C++ (only .sln files, no makefile/script) and I would only need it for this single task..

Anybody with VS, could you build it for me? You can fetch it here:

http://www.libsdl.org/tmp/SDL-2.0.zip
