## Subject: Re: Error in XML Read
Posted by mirek on Mon, 17 Jun 2013 08:06:29 GMT

Use

```
msg1 = p.ReadTextE();
```

Explanation: Comments are normally skipped by Skip. ReadText (without E) only reads single element from XML, but on its own is not able to skip anything. ReadTextE reads all text until ending tag, skipping things as needed.
