When compiling DockingExample1 the compiler reports this error:

----- CtrlLib (GUI MSC9 DEBUG WIN32 MSC) (1 / 11)

----- Docking (GUI MSC9 DEBUG WIN32 MSC) (2 / 11)

DockPane.cpp

C:\Upp\Bazaar\Docking\DockPane.cpp(7) : error C2065: 'width' : undeclared identifier

C:\Upp\Bazaar\Docking\DockPane.cpp(400) : error C2065: 'width' : undeclared identifier

C:\Upp\Bazaar\Docking\DockPane.cpp(404) : error C2065: 'width' : undeclared identifier

Docking: 1 file(s) built in (0:01.25), 1250 msec / file, duration = 1297 msec, parallelization 0%

There were errors. (0:02.07)

Apparently, the variable width is not defined.
