Well, the mistery is being solved

Your build with MSC10 optimal DOESN'T work on my machine (32 bit) nor on a 64 bit machine.

As I told you some time ago, there are problems with MSC10.

The same app rebuilt with MSC9 in optimal mode DO work both on 32 and 64 bit.

Sorry but I have not MSC10 handy nor time now to solve it for MSC10.... I guess its optimizer is quite more aggressive then MSC9 one and needs workarounds.

By now, you have the only choice of building it with MSC9....

Ciao

Max
